

## **Report on World Class Cities FOR ALL Campaign in Delhi, India (December 2009)**

The World Class Cities for All campaign has been successfully organized in the national capital Delhi with a promising note of taking forward the movement into a new height. This was the first ever big campaign that NASVI launched at Delhi covering all 12 MCD zones and 3 NDMC zones. The main motive behind this campaign was to make the policy makers aware about the condition of the street vendors at Delhi in one hand and to include their concern in the macro level planning and to mobilize local organization and to provide them a platform to raise their voice in front of the concern authority. It was a great success in the sense that during the campaign NASVI had opportunity to meet the honorable Lieutenant Governor of Delhi and MCD commissioner and other top officials from various department to discuss the problems and solution of the vendors at Delhi and also the campaign brought together various local organization working at different areas of Delhi into a single fold. It was interesting to note that organization of extreme left & right politics joined the campaign forgetting their individual organizational concern and showed unity for the cause of the vendor. All also accepted the leadership of the NASVI and agreed to work under the guidance and direction of NASVI.

NASVI called a meeting at its office on 7<sup>th</sup> November. Leaders of 11 different organizations were present at the meeting. All were agreed that at the current stage vendor's organization Delhi are working at various levels in a very scattered manner putting their individual effort without any co-operation and co-ordination among organization resulting in providing high hand to the authorities to deal them individually. It was felt that one mechanism should be developed at Delhi which will promote collective bargaining with the authorities. It was felt that it is possible only through building up joint alliance of organization from different spectrum and launching joint movement and adding up new allies to the alliance. After thorough discussion all agreed to formed "**Delhi Rehdi Patri & Saptahik Bazaar Hawkers Sangharsh Morcha**". The alliance also chalked out a charter of demands on which there were mutual agreement of all the allies.
